

Cosmic Clicks: Astrophotography Challenge

Introduction

Welcome to the 'Cosmic Clicks: Astrophotography Challenge'!

Unleash your inner space photographer and share your vision of the universe.

Problem Statement

Problem Statement:

You are tasked with capturing the wonders of the night sky using your camera or smartphone. Your mission is to visually represent a celestial object or scene-such as the Moon, stars, constellations, or a planetary event. The photo must be original, taken by you, and should aim to inspire awe or curiosity about space. Use editing sparingly; natural beauty wins!

Judging Criteria

Judging Criteria:

- Originality and Creativity
- Clarity and Quality of the Image
- Relevance to Astronomy
- Visual Impact and Composition
- Optional Caption or Description (max 50 words)

Submission Guidelines

Submission Guidelines:
